Apply for the Type-A open calls

KITT4SME

At a glance

KITT4SME is an EU-funded project which provides the IT-infrastructure and core AI-based software modules to support the production by SMEs and mid-caps from the manufacturing world.,

The objective of the project is to create a platform holding composable modules of AI kits for the use of the SMEs.

To populate the platform with reliable AI solutions, KITT4SME will distribute a total of 2,5 million EUR of EU funding through 2 types of open calls:

- **Type-A**: invites AI solution providers that are SMEs and mid-caps which offer AI based solution with a value for the manufacturing industry
- **Type-B**: invites small teams of solution providers and end-users to conduct pilot experiments (will be launched in 2022)

Who can apply?

- Single applicants
- SME's or mid-caps
- established in the H2020 eligible countries
- having a mature (>TRL5) AI-based solution
